

Dennis G. Horvath Electrical Contractor Inc.

“Have your Job Done Professionally”

Power Solutions for Home and Business.

Dear Sir Madame,

Please allow me to introduce our company to you. Dennis G. Horvath Electrical Contractor Inc. is a full service electrical contractor serving Northern New Jersey and New Jersey Shore Points with offices centrally located in Wayne and Belmar, New Jersey. We're a family-owned NJ based business with over 80 years of electrical contracting experience. We're proud of our reputation for superior, client-focused service and have always prided ourselves on a quality installation using high quality materials that add value to your property. We offer design/build service as well as traditional estimates, with unrivaled skill and professionalism using our highly knowledgeable staff and computer generated estimating systems. Equipped to meet your electrical, mechanical, generator system, pumping motor and control needs for every project size, we're committed to safeguarding the well-being of our NJ clients, as well as saving them money and ensuring their year-round comfort.

From small residential wiring problems, aerial warehouse lighting, electrical troubleshooting repairs to that 2000 amp switch gear running your facility, malfunctioning electrical systems can be volatile. We safeguard your family/business/municipal agency through comprehensive troubleshooting and diagnosis of your power system. Common service options include switch repair, outlet repair, short location and lighting maintenance.

We offer Generator design, installation, service and maintenance contracts for residential to larger commercial and industrial solutions. When choosing a generator, equipment price should not always determine this important life safety decision. Our experience ensures a harmonious marriage of your stand-by power equipment with your existing electrical service/switch gear. Ensuring your safety and productivity during power outages, our technicians' install and service portable and standby generators for home and business owners. We have consistent working relationships with not one but many different quality makers from 10kw to 1 megawatt. Kohler, Generac, Cummins/Onan, Atlantic Detroit and Caterpillar/Foley to name a few, at competitive price points.

Other services include: Warehouse, Interior fit-outs, Municipal Pumping Stations, Waste - Water and Well Pumping Facilities, Bucket Truck and High/Lo Equipment, Electric Vehicle Charging Stations, Public Swimming Pool Inspections, SCADA Systems and Control Automation, Variable Frequency Drive and Motor Installations. If you don't see it just ask.

Certifications Include: NJ Electrical Contractor License, Bonding and Insurances, Dept. of the Treasury Div. of Property Management and Construction certifications for Electrical, Mechanical, Pumping Stations, Sewage and Water Treatment Plants, Dept. of Labor, Public Works Contractor Registration, Dept of Treasury Div of Contract Compliance Certificate of Employee Information Report.

We pride ourselves on developing longstanding relationships with our customers, staff, and vendors. We look at each job as an opportunity to enhance our reputation. I appreciate any opportunity to bid on your work. Please call me when I can be of service to you. I look forward to doing business with you in the future. Thank you very much for your time and consideration.

Warm Regards,
Dennis G. Horvath, President
